Product Backlog

Product backlog Item	Sprint task	Priority	Volunteer	Initial estimate of effort
As a user I want to be able to easily navigate around the website. So that its time efficient.	Create wireframes for application	High	Jerry, Tomas, Jack, Sandy, Yi Li	3
	Create UI mockup	High	Tomas	3
	Proof of concept code for API calls	Medium	Jerry	8
	Create working UI prototype	High	Tomas	5
	Local storage for storing information between pages	High	Jack	3
	Create classes for storing and using information from API calls	High	Sandy	3
As a project manager, I want to easily identify who is and isn't on their tasks. So that i can allocate tasks fairly.	Create pie chart displaying contributions of each team member	Medium	Tomas	8

	Change time intervals of data representations (months, days, weeks)	Medium		8
As an assignment marker, I want to visually and easily see who has contributed the least and most. So that I can mark each team member fairly.	Graphical representation of stats	Medium		3
	Creating timeline	Medium		5
As an assignment marker, I want to be able to track changes and contributions to different files. So that I can track the amount of work given by each member for that file.	File history		!!!!!!!! Require review !!!!!!!!	5 days
As an assignment marker, I want to see who contributed to what files. So that I can scale each member's marks according to their contributions.	Display list of members for each file			1
	Get contact information of contributors (email)			1
	Display number of issues per file			1
	Display list of members who contributed to each language			3
	Display average response time to issues			2
	Display list of who resolved each issue			1

As an assignment marker, I want the interface to be displayed properly cross platform. So that it is convenient for marking where-ever I am.				0
